Aviatrix ACE Multicloud | Azure AI Essentials | AWS AI Practitioner | 5 AI Systems in Production | 47+ public projects across AI, fintech, automation & cloud

CORE TECHNOLOGIES

Languages: Python · TypeScript · JavaScript · Java · SQL · Bash

Frontend: React · Next.js · Tailwind CSS · shadcn/ui · React Native

Backend: Node.js · FastAPI · REST APIs · CI/CD · Docker · Git

Cloud: AWS · Azure · GCP · Terraform · Supabase · Vercel · cPanel

Data / AI: PostgreSQL · RAG Architectures · LLM Development · Ollama · Firebase

Security: Zero-Trust · SIEM · OSINT · Ethical Hacking · NIST / CIS

PROFESSIONAL SUMMARY

Head of Technology at NobzTech delivering AI-powered platforms, automation pipelines, and secure cloud infrastructure for SME clients across South Africa. Aviatrix ACE-certified in multicloud networking, with production LLM/RAG deployments, full-stack engineering, and an offensive security mindset. Experienced leading cross-functional delivery, mentoring graduate developers, and shipping concurrently across multiple client engagements.

EXPERIENCE

Head of Technology (Contract) | NobzTech – Midrand, SA | Oct 2025 – Present

Digital transformation & AI solutions company helping SA SMEs scale through custom platforms, automation, and AI.

- Lead technical architecture, delivery, and engineering decisions across 47+ digital projects covering AI, automation, CRM, eCommerce, and cloud solutions.
- Design and deploy AI-powered solutions — chatbot workflows, payment-enabled platforms, and operational tools — directly supporting client digital transformation.
- Oversee cloud infrastructure, DevOps, and CI/CD pipelines; drive cybersecurity posture across all client-facing and internal systems.
- Managed and mentored a cohort of WIL interns and junior developers, supporting technical onboarding, project delivery, and workplace readiness; contributed to 25+ graduates placed into the workplace pipeline.
- Designed and delivered a 4-week Cybersecurity Upskilling Programme covering Linux, network security, web app security, and incident response.

Software Developer (Contract) | Spane4All | Jun – Dec 2025 ***(part-time, concurrent with NobzTech)***

- Developed and tested 5+ applications across utilities and medium-sized modules within an Agile team; contributed directly to production codebases.
- Resolved 10+ complex issues alongside senior developers, reducing debugging time ~15%; achieved 95% unit test coverage on all delivered modules.

Accelerator Intern | Sunderland Internacional, Cape Town | May – Jun 2025

- Compiled 500+ prospect records increasing lead generation by 15%; built 5 Tableau visualisations supporting client retention insights.

EDUCATION

Bachelor of Science in Computer Science | University of South Africa (UNISA) | Completed Nov 2024

Data Structures & Algorithms · Software Engineering · Database Systems · Computer Networks · Information Security · Artificial Intelligence · Software Project Management

CERTIFICATIONS

2026: Game Hacking Fundamentals (Red Team Leaders) · AWS AI Practitioner Challenge (Udacity/Accenture) · cPanel Professional · Claude Code in Action (Anthropic) · Claude 101 (Anthropic)

2025: Aviatrix ACE Multicloud Network Associate · Architecting LLM Apps on Azure: RAG & Agents (Udemy) · Azure AI Essentials Professional (Microsoft/LinkedIn) · Intro to OSINT (Security Blue Team) · Cybersecurity Fundamentals (IBM) · Intro to Cybersecurity (Cisco) · Cloud Security & Audit Fundamentals (CompTIA) · JavaScript Essentials 1 (Cisco)

PROJECTS

JARVIS – AI Orchestration Platform

Python · Node.js · Rust · Supabase · Ollama | 2025–Present | github.com/Anesuzues

Personal AI orchestration platform integrating 5 AI systems with 35+ specialist agents, intelligent task routing, 5-layer memory architecture, and hybrid local/cloud inference via Ollama for zero-cost private processing.

TenderPilot AI

Python · FastAPI · React · PostgreSQL · pgvector · Anthropic Claude · Supabase | 2025 | tender-pilot-seven.vercel.app

AI-powered tender management platform for SA SMEs covering the full journey from RFP analysis to submission-ready proposals. Full RAG pipeline with compliance vault, proposal builder, and matching engine; B-BBEE/POPIA compliant with RBAC and tenant isolation.

SYNTRA Financial Pro

React Native · Expo · TypeScript · Firebase · Google Gemini AI · Genkit | 2025 | github.com/Anesuzues/SYNTRA-APP

Cross-platform fintech app (iOS/Android/Web) with 4 AI coaches, 87% accurate 30-day cash flow forecasting, and spending anomaly detection built for the South African market with POPIA compliance.

PoolPal – Group Savings Platform

React 18 · TypeScript · Paystack API · WhatsApp Business API · shadcn/ui | 2025 | github.com/Anesuzues/poolpal-your-group-s-money-buddy

Mobile-first web app automating stokvel and group savings management with Paystack integration, democratic voting, CSV export for accountability, and WhatsApp notifications.
